This article explores the country's progress, challenges, and innovative solutions like solar-storage hybrids and microgrids. Learn how these projects are reshaping Nepal's energy landscape and ...

Gham Power, in collaboration with Practical Action and Swanbarton, has been awarded a project by the United Nations Industrial Development Organization (UNIDO) to install one of Nepal's ...

To build a smart PV+ storage system in order to increase energy reliability in Nepal whilst reducing the environmental impact, we collaborated with four organizations for our project- GRIPS.

Gham Power together with its partners Practical Action and Swanbarton have officially been awarded a project by United Nations Industrial Development Organization (UNIDO) to install one of the largest ...

This paper presents a review of energy storage systems covering several aspects including their main applications for grid integration, the type of storage technology and the power...

This article explores how cutting-edge energy storage solutions are reshaping Nepal's power infrastructure while addressing rising demand for reliable electricity.

This pioneering project is set to transform industrial energy use by replacing polluting diesel generators with a large-scale battery storage system powered by solar energy.

Take Nepal's first solar-storage PPA signed last week - a 25-year deal guaranteeing 14% IRR through monsoon/winter price arbitrage. As Asian Development Bank's energy lead Priya Singh puts it: ...

Representing Nepal at the launch were Nepali Ambassador Bharat Kumar Regmi, Gham Power CEO Anjal Niraula, and teams from Swanbarton and Practical Action. This groundbreaking ...
