How many states have free solar programs?

In the United States, there are 11 states free solar pioneers who are standing at the forefront of this solar revolution. These states are not only harnessing the sun's power but are also offering incentives, including free solar programs, to residents and businesses.

Are solar panels free?

The Department of Energy is aware of claims of offers for free solar panels or that solar companies must provide solar panels for free if requested. However, the federal government does not offer any programs for free home solar panel installations nor does the government require companies to grant solar panels for free to customers.

Which states offer solar incentives?

Arizona, Hawaii, Massachusetts, New Mexico, New York, South Carolina and Utah offer personal tax credits to encourage solar installations. Other states, like Tennessee, West Virginia and Oklahoma, don't have any residential solar panel incentives at all. NOTE: Solar program statuses often change with new laws or funding.
