Our power supply enclosures offer efficient power processing & synchronous rectification, ensuring cool operating temperatures & longer runtime. See more!

High integration Modular design, convenience for operation and maintenance Unit building block function, support parallel connection of multiple cabinets on the AC side Power and energy density ...

Starting from the main distribution, the TAP box supplies power to your individual tunnel applications, such as the lighting and evacuation systems. This protects the main distribution from short circuits.

In Delvalle we have an SOS cabinets for tunnels, which consists on an emergency station addressed to the users of the tunnel and maintenance personnel, which allows to notify and communicate about ...

Optional integrated battery cabinets for longer back-up time High seismic withstand capability - for reliability in adversity

Our base station cabinets can directly power nearly any communication equipment they house. The design of our racks and cabinets allow for high integration with different backup time and easy ...

Navigate through our diverse array of cost of 1500v communication power supply cabinet for microgrids to find your ideal solution.

ETA's weatherproof and industrial-grade enclosures support DOT traffic control, railway signal cabinets, tunnel automation, and smart city power distribution. Built for Demanding Automation Applications.

This heavy-duty enclosure securely houses a Stand By Power Supply and three (3) batteries along with equipment and cable required for fiber optic conversion and/or distribution.

# 1500V Communication Power Supply Cabinet for Tunnels

The DC high-voltage power output is available with 1000V, 1200V, 1500V, 2kV, 3kV high voltage programmable power supply. There is option for negative output from -200V to -3000V.
