The construction of the Dunhuang BoFan Energy Storage GWh-scale Vanadium Flow Battery Production Base and the Dunhuang Vanadium Industry Chain Project has officially begun.

With its fully automated, high-capacity production, we continue to push the boundaries of innovation in vanadium flow batteries, providing safe, durable, and recyclable energy storage ...

Rongke Power and China Three Gorges Corporation have brought online the world's first gigawatt-hour-scale flow battery energy storage project.

As the first vanadium flow battery project to function at the gigawatt-hour level, Jimusaer demonstrates the capability of vanadium flow battery technology to operate reliably at unprecedented ...

China has just switched on the world's largest vanadium flow battery showcasing its gigawatt-hour-scale flow battery technology.

On the morning of May 17, 2024, Dunhuang City held a symposium with Chengde Xinxin Vanadium and Titanium Co., Ltd and Datang Gansu Power Generation Co., Ltd. and signed an ...

China's 200 MW/1 GWh vanadium flow battery project, integrated with 1 GW solar, enhances renewable energy utilization.

China has switched on a record-breaking vanadium flow battery in Xinjiang, pairing it directly with a 1 gigawatt solar farm to soak up desert sunshine and feed it back into the grid after dark.

Guohua Energy Investment Co., Ltd. Clean Energy Industrial Park has introduced Goldwind Technology to invest 100 million yuan to build an energy storage system project with an annual output of 1GW ...
