-----

The lithium-ion battery cell sorting machine is equipped with a high-precision battery OCV/IR tester, which is suitable for the automatic testing and sorting of 18650, 21700, 26650, 26700, 32650 or ...

ACEY-AS5S lithium battery sorter is an efficient and automated sorting machine. It has the remarkable ability to sort the voltage and internal resistance of cylindrical batteries like 18650, 21700, 26650, ...

The battery sorter is mainly used to support the process of sorting and matching cylindrical cores. On the basis of conventional capacity parameter sorting, accurate AC internal resistance measurement, ...

There are several dedicated machines designed for sorting 21700 50E battery cells. Some of the best choices include: Ideal for high-volume environments, these machines offer completely automatic ...

Battery sorting machine is for batteries testing before battery pack assembling. Can test battery voltage and internal resistance, and sorting cells to different bracket with different voltage and internal ...

ET 21700 Sorting Machine is a highly automated and efficient cell sorting system specifically designed to process 21700 cylindrical cells with or without insulation sleeve.

The 11-Channel 18650/21700 Cylindrical Battery OCV & IR Testing and Sorting Machine is a high-precision automated system designed for testing and sorting cylindrical battery cells based on open ...

Description: The automatic battery sorter is a equipment for 18650 21700 battery cell sorting, through manual loading and simple settings, the battery sorting process can be completed.

The battery sorter is mainly used to support the process of sorting and matching cylindrical cores. On the basis of conventional capacity parameter sorting, accurate AC internal resistance measurement, ...

Precision Measurement: Accurate voltage and internal resistance measurements ensure product quality. Wide

## 21700 automatic sorting of battery cells

Application: Ideal for the lithium battery industry, ensuring efficient sorting of cylindrical cells. ...
