Turn your vehicle, battery bank, or off-grid system into dependable AC power with the AIMS Power 5000 Watt Inverter. Designed for real-world performance, this inverter converts 12V DC battery power into ...

Find AIMS Power inverters at The Inverter Store in several voltages for off-grid living and powering devices without the need for a larger electrical system.

Not always as not all controllers can handle that high of a voltage on a 12 volt battery. With a Grid Tied which you have, you should be using a MPPT Controller.

The 3000W Pure Sine Wave Inverter (3000W36V) converts 36V DC power to efficient 110V/120V AC electricity. It is a good choice for cars, solar, and off-grid setups.

All our 36V to 12V inverters meet high quality standards and have high efficiency. They also feature overload and temperature protection and offer a stabilised output voltage.

This was a 36V 2.5kVA Sinergy Transformer-based Inverter with three 100Ah Sinergy batteries connected in series. It could power all my loads, but had a small battery bank.
