Our macro cell antenna portfolio supports a wide range of frequencies, RET (Remote Electrical Tilt), multi-band operations, and massive MIMO capabilities -- all tailored for demanding ...

Designed to house a variety of communications equipment, CUBE customers take advantage of our engineering and factory integration for complete turn-key solutions. The CNTCE ...

With multiband support, high power output, and cost-effective designs, our solutions offer a compelling path forward for improving macro cell performance while reducing deployment costs.

Only one board needs to be added, so to upgrade the existing site into one-stop 5G cloud base station for industry. No engineering survey is required, no new equipment room space needs to be added, ...

One of the most compact outdoor macro base stations in the industry, it features a large, scalable capacity and multi-mode applications that meet the requirements of long-distance railways.

Skyworks offers a broad portfolio of products that enable our customers to design state-of-the-art 4G and 5G base stations. These products include low noise amplifiers (LNAs), drivers, high power switches, ...

The 12U 600mm Wide x 600mm Deep PI Data enclosure/cabinet has been designed to ensure maximum rigidity and weight loading without compromising the versatility of the solution.

It makes full use of PCIe interfaces to simplify the design. It also meets the special requirements of 4G and 5G base stations for the universal platform to reduce the difficulty of integration and secondary ...

The form factor of the iCell COMPAC LTE Macro allows it to be easily transported and installed. Its rugged enclosure is rated to IP65 protection and can be mounted outdoors on pole tops, walls or ...

5G macro base station industrial cabinet 600mm deep

High-performance power solutions for macro cell networks. EnerSys supports scalable, efficient energy storage for large-scale wireless infrastructure.
