Where are data center custom server cabinets made?

AMCO Enclosures offers data center custom server cabinets, cases, cages, cable management, and PowerWhips products. All our custom data center network racks and server racks are manufactured right here in the USA at our facility in Des Plaines, IL. This includes data center custom server cabinets, cases, cages, cable management, and PowerWhips products.

What is a DC series cabinet?

Our DC Series is the Data Center Standard for high-capacity, high-weight load rated, feature-rich cabinets.

How long do data centers last?

Data centers replace their IT equipment much faster than the infrastructure hosting them. For example, a cabinet is, on average, used for 15-20 years, while servers have a typical lifespan of only 3 to 5 years.

Are Nucor's CoLo Series cabinets UL rated?

Our CoLo Series cabinets are UL Listed, providing secure compartments and cable/power pathways. They are also Seismic rated and convertible from a single-compartment cabinet to 8-compartment enclosures.
