What features should you consider when buying a portable power bank?

Pass-through charging is another feature to consider; with it, you can charge your device and a portable power bank simultaneously. That's convenient if both your phone and backup battery are running out of power.

Will a 15W power bank charge a laptop?

A phone will happily charge off a 100W connection, but a 15W plug won't do much for your laptop. And remember, the cable has to match the maximum wattage. A cable rated for 60W won't deliver 100W speeds. Luckily, some of the best power banks include a built-in USB-C cable.

Should you buy a power bank or a portable charger?

The best power banks are always handy. Our gadgets have a Murphy's law-like ability to run out of power at the least convenient moment: as you step on the bus, right in the middle of an important meeting, or just as you get comfortable on the couch and press Play. But with a portable charger, you can keep using your devices.

What is the best portable power bank?

1. CUKTECH 30 Power Bank The CUKTECH 30 is that perfect middle ground between a portable power bank and a mini power station. It's got a massive 40,000 mAh of capacity, which is more than enough for charging literally all your devices many times over on long haul flights.

AsperX laptop power bank can provide 100W and 65W fast charging for two computers at the same time. It can significantly improve the charging efficiency and feel the speed of technology.
