AgriConnect is a World Bank Group initiative to transform smallholder farming, create jobs, and strengthen global food security.

Artificial Intelligence presents a timely and powerful tool to help reimagine agricultural transformation in ways that are more productive, sustainable, and inclusive. This report presents a comprehensive and ...

The concept of agrivoltaics was first proposed in Germany in the early 1980s to preserve farmland while deploying solar energy. Agrivoltaics is now deployed and studied across the globe, with sites on ...

Agrivoltaics, or the practice of solar agriculture co-location, is defined as agricultural production underneath or adjacent to solar panels, such as crops, livestock, and pollinators.

The process of combining agricultural production and solar panels on the same farmland, known as agrivoltaics, has seen a great leap in Cornell research activity.

This innovative program aims at enhancing environmental sustainability, competitiveness, and economic participation of small and medium agricultural producers (PYMPAs) in Costa Rica. It ...

Discover Agri-PV (Agrivoltaics), the innovative dual-use solution combining agriculture and solar energy production. Learn how Netafim's expertise in precision irrigation, agronomic support, and sustainable ...

As the global push for net-zero emissions intensifies, scientists are turning to agrivoltaics -- the combination of agriculture and solar power -- as a means to reduce carbon emissions from ...

A vibrant commercial smallholder sector would give rise to better non-farm livelihood opportunities, sparking rural economic transformation.

In this Review, we analyse the implementation of AV cropping systems to preserve agricultural activities and

Agricultural solar cell system

highlight challenges and barriers.

India's agricultural universities are undergoing a historic transformation through the National Agricultural Higher Education Project (NAHEP), supported by the World Bank and ICAR. ...

Agriculture and Food Agriculture can help reduce poverty, raise incomes and improve food security for 80% of the world's poor, who live in rural areas and work mainly in farming. The World Bank Group is ...
