Angola's national oil company Sonangol plans to deploy more than 100 electric vehicle charging points (EVCPs) by 2028 as part of its wider energy transition strategy. The initiative was ...

Sonangol, the national oil company of Angola, said that it is about to install more than 100 Electric Vehicle Charging Points (EVPCs) by 2028, as part of its larger energy transition strategy.

The national oil company in Angola is set to roll out more than 100 Electric Vehicle Charging Points (EVCP) over the next three years. Sonangol confirmed recently that it plans to roll ...

Angola's EV charging infrastructure is nonexistent, with no public stations and reliance on private, improvised solutions. Renewable energy projects and private-sector interest offer potential, but ...
