Which solar generator is right for You?

Whether you want something compact for camping or a larger unit for emergency home backup, these solar generators deliver the goods. The Jackery Solar Generator 2000 Plus is a fast-charging portable power station that can be bundled with SolarSaga 200W panels for recharging off-grid.

How do I choose the best solar generators?

To pick the best solar generators, we tested some of these power stations for charging capacity, ease of use, weight, and different use cases. Some picks were reviewed by Popular Mechanics test editor Brad Ford, who provided input for the larger-capacity units.

Can a solar generator power any device?

To find out if a solar generator will be able to power any given device, you'll need to know how much power the device draws and how much power the solar generator can push out. If a solar generator, say the Bluetti AC200P, has an output of 2,000 watts, it can push that amount of power continuously.

Which solar generator is the fastest?

Rockpals 300W Power Station and 100W Solar Panel (Update: Currently unavailable): This solar generator performed just fine in our tests. It was the fastest charging of the rest in its smaller size category (though much slower than our favorite, Bluetti's EB3A).

The solar generator can be charged with a maximum solar input of 1,400 watts. It has a simple yet informative display and weighs 61.5 pounds, making it lighter than many similarly sized...

We rated and reviewed the best solar-powered generators for ...

We rated and reviewed the best solar-powered generators for home backup during power outages, including models from Generac, Jackery, and more.

Elevate your outdoor adventures or power your home during emergencies with a reliable solar generator. Explore top-rated models from trusted brands.

This year's solar generators push capacity, recharge speed, and port variety while staying compact. We'll look
