---

A 24V 100Ah lithium battery pack tailored for solar energy systems, golf carts, and backup storage. Offers higher voltage for improved power efficiency and extended runtime.

Lithium batteries are lighter, last longer, and offer consistent power output compared to lead-acid ones. This makes them ideal for setups demanding efficiency and longevity.

We are proud to announce the successful installation of a containerized lithium battery energy storage system in Austria, shipped directly from our manufacturing base.

This 48V 100Ah heated rack-mount solar battery utilizes LiFePO<sub>4</sub> technology, providing a reliable 5.12kWh capacity for efficient solar energy storage. Its heating function solves common problems like ...

Ideal for home backup and small solar systems, this 12V 100Ah battery combines portability with high performance. Featuring A-grade lithium cells and 80% depth of discharge, it delivers 6,000+ cycles ...

What applications is this battery suitable for? 12V LiFePO<sub>4</sub> batteries are suitable for many applications, including solar energy storage systems, boats and camping vehicles, emergency power supplies, ...

The environmentally friendly and long cycle life 12V solar panel battery configured with high-performance BMS has a wide range of performance and application advantages compared with conventional ...

It can process and monitor up to 16 stackable battery packs at the same time, provide a battery balancing function, manage different batteries with the same charge and discharge requirements, ...

HHS Solar Storage Battery series are widely used in Solar Systems for residential and commercial use. With more than 6000 times deep cycle, up to 90% DOD and phosphate battery Cell, HHS Server ...
