----

Discover BAK"s ENDURO S+ liquid-cooled all-in-one energy storage system--high efficiency, superior safety, and intelligent control for industrial and commercial applications.

It delivers an ultra-long cycle life of 10,000 cycles, a high energy density of 190 Wh/kg, 2P high-power capability, and discharge efficiency surpassing 95%. This cell performance breakthrough results from ...

BAK Battery"s new square 314Ah high-capacity energy storage cell establishes a fresh benchmark for longevity, economy, and dependability, featuring an ultra-long cycle life of 10,000 ...

BAK Battery launches 688Ah large-capacity energy storage cell with 435Wh/L energy density, 12,000+ cycle life, 8% system cost savings, and industry-leading safety.

Bak plans to launch a 390 Wh/kg solid-state battery by late 2025, targeting safety equipment, EV battery swapping, and eVTOLs. Current prototypes already pass nail penetration ...

Among the plethora of energy storage solutions, BAK energy storage systems stand out due to their advanced lithium-ion battery technology and robust design tailored for high efficiency and ...

BAK"s energy storage batteries feature modular design and come equipped with an intelligent battery management system (BMS). They offer advantages such as compact size, ...

BAK Power"s products and services include cylindrical, prismatic and polymer batteries, battery packaging and battery solutions, which are mainly used in new energy vehicles, consumer products, ...

BAK Battery launches the ENDURO S+ liquid-cooled energy storage system, offering safe, efficient, and flexible power solutions for commercial and industrial applications.
