EcoDirect designs and supplies solar + battery projects in Barbados. Our team has the tools and experience to get your next project designed and delivered.

Barbados is a step closer to launching its first procurement project for Battery Energy Storage Systems to support the grid and unlock stalled Solar PV connections.

With the current grid unable to absorb more intermittent solar energy, battery storage is the key to unlocking a backlog of projects and enabling 24/7 renewable power.

Barbados is soon to launch its first project for the installation of Battery Energy Storage System. This will support the electricity grid and will allow the stalled solar photo voltaic (PV) systems ...

Barbados is moving forward with its national energy policy and resiliency plan, with an RFP for up to 60 MW of battery energy storage systems (BESS) set to be issued by the end of the ...

A \$350 million hybrid renewable energy power plant is scheduled to be constructed in Barbados. It will be the largest, most advanced facility in the area, as BioEnergy Times reported.

Monitor and control BESS and photovoltaic installations across the island in real time. House a research and development center to provide training, and enhance local technical expertise. ...

BLPC is seeking proposals from qualified investors to install up to 200 MW of battery storage systems. These systems will be vital for managing the country's expanding renewable ...

The Barbados Light & Power Company Ltd @BLPC installed utility-scale energy storage as a component of the 10 MW Solar Photovoltaic (PV) plant in the north of the island at Trent's St. ...

We develop solar PV and battery energy storage systems while providing for local engagement and

Barbados solar storage

ownership. Building from this, Blue Circle Energy also facilitates capacity building through school ...
