Browse past, present, and future energy storage projects from UC San Diego's Energy Storage Group. Filter by research area and see real-world impact in action.

The energy storage systems included in this commitment are built using the latest LG Energy Solution containerized lithium-ion battery solutions with LFP cells manufactured at U.S. facilities.

NLR researchers are designing transformative energy storage solutions with the flexibility to respond to changing conditions, emergencies, and growing energy demands--ensuring energy is ...

Discover the largest battery storage projects in the U.S. for 2025, including Darden, Bellefield, and Swiftsure.

The agreement includes 5 GWh of lithium-ion energy storage systems for utility-scale projects, as well as lifecycle services from LG Energy Solution Vertech. In 2024, Qcells entered into ...

According to BloombergNEF, global battery storage capacity doubled in 2023, and most of that growth came from lithium-ion technology. Companies like Tesla, LG Energy Solution, and ...

Interactive map of battery storage projects in the US. View the largest projects, track new developments, and explore capacity data across all states.

Once built, DCEP will be the largest battery energy storage system in the world, highlighting California's leadership in clean energy innovation and infrastructure.

Under the agreement, LG Energy Solution Vertech will supply 5 GWh of lithium-ion battery energy storage systems (BESS) for utility-scale projects, along with full lifecycle services. The ...

The agreement secures American-made LFP battery supply for Qcells' utility-scale projects from 2028 to 2030, reinforcing a shared commitment to domestic manufacturing.
