Why do we need an uninterruptible power supply (UPS) system?

In data centres, traffic control centres, on sensitive production lines and in many other fields, systems for the uninterruptible power supply (UPS systems) save lives and secure data, avoid costs, ensure order, protect infrastructures, and prevent situations arising that can threaten livelihoods.

What is NiCd uninterruptible power supply?

An nicd uninterruptible power supply industrial, modular and stand alone UPS from Germany from Europe is an uninterruptible power supply electrical source, industrial nicd UPS with battery as static high technology solution, is an electrical apparatus that provides emergency electrical power to your electrical load.

What are industrial UPS solutions?

The industrial ups solutions fabricated and innovated by using newest technologies like micro controllers, electronic boards and also power electronic key parts like IGBT the topology of transformer less UPS solutions generate electricity with consist high - tech advanced controlled output with high efficient design.

Ups Systems Are An Essential and Integral Component of Your Security Concept
An Individual Solution to Suit Any Requirements
Advantages to You at A Glance
Be Equipped For All Requirements with Ups Systems
NTC will design and integrate your UPS systems in any required size and complexity. From small office mains supply systems to high availability systems in computing centres and on to uninterruptible power supplies on an industrial scale. In all cases, we supply overall, manufacturer-independent solutions, components and accumulators that leave no gaps.
