Will 5G be available in Brazil?

Some states in Brazil have already launched 5G in Brazil. On July 6, 2024, Anatel released data on the deployment of 5G on the Brazilian territory.

How many municipalities in Brazil are eligible for 5G?

On December 2024, Anatel announced that all 5,570 municipalities in Brazil are now eligible to receive SA 5G technology, marking a significant milestone in the expansion of the next-generation network. At the time of Anatel's latest data release, it was estimated that 770 municipalities already had active 5G networks.

How many 5G stations will Anatel allow in 2024?

Beginning September 2, 2024, Anatel will allow 194 additional municipalities to license and activate 5G stations in the 3.5 GHz band.

What are the operational requirements for 5G?

In collaboration with the Brazilian National Civil Aviation Agency (ANAC), Anatel has established operational requirements for 5G stations operating in the 3.3 GHz to 3.7 GHz band, aiming to mitigate potential interference with aircraft radio altimeters and ensure the safety of aviation operations.

Brasília, Brazil's capital since 1960, is famed for its modernist architecture designed by Oscar Niemeyer and its unique, airplane-shaped city layout. The city is a UNESCO World Heritage Site and home to ...

Renowned for its modernist lines and futuristic design, Brasilia is a study in urban planning and the only city built in the 20th century to be counted among UNESCO's World Heritage Sites.

Explore expert insights on 5G regulation and law in Brazil, covering deployment, regulatory measures, and future plans. Ideal for telecom professionals.

In many ways, the middle-of-nowhere location makes sense for Brasília. It's not only the most

un-Brazilian-feeling city in the country but it might also be the most un-Latin American-feeling....

Brasilia provides something uncommon in the modern travel industry: room to relax, contemplate, and see another side of Brazil with its wide open skies, daring architecture, and serene ...

Brasilia, the capital of Brazil and the seat of government of the Distrito Federal, is a planned city. Inaugurated in 1960 in the Central Highlands of Brazil, it is a masterpiece of modernist ...

In a statement from Anatel, the regulator said that it provided licenses for the activation of 5G base stations in 194 more municipalities last week (August 27).

Brasilia is a Brazilian city that was thought out and planned. With an architectural design in the shape of an airplane, it stands out from everything you have ever seen. Haven't decided yet? Let us inspire ...

Learn how Brazil is expanding 5G deployment to 194 more municipalities with the 3.5 GHz band, enhancing connectivity for over 94.5% of the population.

In a series of tests conducted in the rural town of Santa Rita do Sapuca, southeastern Brazil, an array of base stations was able to transmit signals via 5G--the future global standard for mobile ...

According to information from ANATEL, the base stations will begin operate the 5G signal on early July 2022, starting in Brasilia (DF) and then expanding to the other state capitals in Brazil.

These figures tell us something powerful: Brazil has both the demand and the density to support scalable 5G networks -- but we're not deploying at scale fast enough.
