In his announcement, the President included an exemption for bifacial solar panels. This decision comes after the ITC recommended in November 2021 to extend the safeguard tariffs for an additional four ...

Since no longer exempt, bifacial solar cells would be subject to Sec 201.

The first 2.5 gigawatts worth of solar cell and module imports were exempt from the tariffs. The tariffs would have expired this month, but several manufacturers, including Auxin Solar, ...

The Biden Administration today put imported bifacial solar panels back under Sec. 201 tariffs, after the specialty solar panels enjoyed a two-year exemption from extra duties first initiated by ...

The chart below provides a high-level overview of requirements that may apply to your planned solar installation. It is also recommended that you contact Toronto Hydro early in the permitting process to ...

Importers who signed contracts by May 16, 2024, may import bifacial solar panels without Section 201 duties from June 26, 2024, to September 23, 2024, provided the contract terms have not ...

The Commerce Department found in 2023 that solar panels made in Southeast Asia should have been considered Chinese in origin, and thus subject to antidumping and countervailing ...

Unlike traditional solar panels, which only capture sunlight on one side, bifacial solar panels are designed to absorb light on both sides--front and back. This allows them to generate ...

Imports of covered CSPV cells in excess of the 5 GW TRQ, and all imports of covered CSPV modules, will

Canada Toronto exempts bifacial solar modules

be subject to additional tariffs at the rates shown below. The Proclamation also maintains the ...
