Costa Rica Eco-Container Hotel consists of 12 shipping containers converted into basic low-budget single rooms with private bathrooms, partly still in development.

Here are five of the most technologically advanced hotels in Costa Rica that provide a seamless blend of comfort, eco-conscious design, and state-of-the-art facilities.

Authentic shipping containers have been stylishly transformed into a unique eco-friendly hotel with private balconies and unparalleled views. The containers were produced in China for worldwide ...

El Faro is the first and only container hotel in all of Costa Rica, seamlessly blending the uniqueness of authentic shipping containers with all the modern amenities you'd expect in a luxury hotel.

The Master Rooms, created from one 40-foot container, occupy the top floor, offering panoramic ocean views. They come with air conditioning, cable television, a phone, and a secure deposit box. ...

El Faro Beach Hotel was built in 2014 and our biggest concern back then, was to cause minimum impact to the environment because we are located right next to Costa Rica's most famous national park.

The El Faro Beach Hotel is just a short walk from the Pacific Ocean and right at the entrance of the National Park if you are in the mood for a hike in the dense nature. The hotel was built from blocks of ...

In Costa Rica's rainforest, for example, a foldable container house stays dry and cool despite daily downpours. This attention to comfort transforms "temporary" into "permanent enough." ...
