Our mobile, containerized energy conversion systems are designed for fast deployment to provide access to reliable power and energy. In projects such as events powered by generators, the ZBC ...

Designed for speed and efficiency, the Charge Qube can be rapidly deployed without the need for complex planning or infrastructure upgrades. Housed within a durable 10-foot sea container, it ...

LZY Mobile Solar Container System - The rapid-deployment solar solution with 20-200kWp foldable PV panels and 100-500kWh battery storage. Set up in under 3 hours for off-grid areas, construction sites ...

It can charge up to 12 vehicles at the same time at up to 7 kW per port. There is also an integral, 22 kW charger for rapid top-ups during the day. The smart charging software prioritises overnight charging ...

To address this problem, Deutz has developed the PowerTree - a mobile fast-charging solution suitable for construction sites that does not require any complex adjustments to the power grid.

Housed in a standard 10-foot ISO container and powered by repurposed second-life batteries, the Charge Qube offers a versatile solution for fleet depots, logistics hubs, construction ...

FLEXX Mobile DC Fast Chargers provide a mobile, durable solution built for the rugged, high-demand environments of construction sites. With FLEXX chargers, your equipment and fleet vehicles can be ...

Rapid Deployment: The Charge Qube is housed in 10-foot or 20-foot ISO containers, allowing it to be deployed quickly without needing planning permission. This makes it ideal for ...

The Liduro Power Port (LPO) is an energy storage system for power supply on construction sites. It allows for locally emission-free operation and charging of hybrid or fully electric ...

Fast charging of folding containers used on construction sites

Designed to bypass planning restrictions and the limitations of grid-constrained locations, the Charge Qube delivers immediate energy solutions for fleet operators, public charging stations, ...
