How much federal funding does a small airport project get?

The act included a provision permitting eligible projects at small airports (including those in the State Block Grant Program) to receive 95% federal share of project costs (otherwise capped at 90%), if such projects are determined to be successive phases of a multiphase construction project that received a grant in FY2011.

Do private airports still participate in the airport Investment Partnership Program?

Privatized airports may still participate in the AIP, but at a lower federal share (70%). The pilot program was renamed the Airport Investment Partnership Program (AIPP) in the 2018 FAA reauthorization act and expanded to admit more than 10 airports.

Can a PFC be approved at a large airport?

PFCs at large and medium hub airports may not be approved unless the airport has submitted a written competition plan to FAA, which includes information about the availability of gates, leasing arrangements, gate-use requirements, controls over airside and ground-side capacity, and intentions to build gates that could be used as common facilities.

This initiative aligns with the airport's long-term carbon neutrality strategy. London Heathrow integrates BESS with solar power to optimize renewable energy use. These FAQs are ...
