Where is first solar based?

Facility will be located at the Acadiana Regional Airport. This site will be the company's fifth American manufacturing facility. The facility will produce First Solar's Series 7 high-performance photovoltaic (PV) solar modules, which are expected to be manufactured with 100% U.S.-made components.

When will first solar be operational in Louisiana?

First Solar's future manufacturing facility is set to be operational by the first half of 2026. The cutting-edge facility will produce high-performance photovoltaic (PV) solar modules, contributing to Louisiana's ascendancy as a leader in the energy sector.

Is first solar a US company?

Driven by a passion for innovation and powered by American ingenuity, First Solar has consistently invested in American manufacturing and American jobs. Today, it is the only US-headquartered company among the world's 10 largest module producers. [2024 First Solar](#).

What can First Solar do with the Louisiana Solar Energy Lab?

This collaboration will also provide First Solar with access to their state-of-the-art research facility, the Louisiana Solar Energy Lab--a 6-acre testing site consisting of 4,200 solar panels. The partnership will be an invaluable asset to both entities as they work together to shape the future of our energy landscape.

We developed our one-of-a-kind marketplace with funding from the U.S. Department of Energy to make clean home energy solutions affordable and accessible to all. [Read reviews for First Solar, a Solar ...](#)

First Solar's new manufacturing facility in Iberia Parish, La., will total more than 2 million square feet and is expected to be operational by early to mid-2026.

In bringing our unique, fully vertically integrated solar manufacturing model to Louisiana, we expect the plant to mirror the commitment to "Responsible Solar" evident at every First Solar ...

The only U.S.-headquartered company among the world's largest solar manufacturers, First Solar is focused on competitively and reliably enabling power generation needs with its advanced, uniquely ...
