What is octopus agile?

Octopus Agile is a unique tariff ideal for renewable energy enthusiasts. It is a variable tariff where the rates you pay for electricity change half-hourly based on wholesale energy prices. If the winds blow and there's excess energy on the grid you could get paid to use it. If there is high demand the rate goes up.

How much does octopus agile cost?

Octopus Agile is capped at £1 per kWh with a daily standing charge of around 61.19p. It could rise very sharply as demand increases in the winter but last month as an example customers are being paid to use energy as they have gone negative! You need an EV to be on Octopus Go or Intelligent tariff.

Does Agile Octopus support givenergy Gen 1 & Gen 2 inverters?

Get FREE access now! Like with our regular charge and discharge schedules, Agile Octopus is supported on the same inverter hardware, which includes GivEnergy gen 1 & gen 2 inverters. The current Wonder Watt features available for Agile Octopus customers are:

Are there custom components for octopus and givenergy?

Yes, there are custom components for Octopus and Givenergy. Have a search on here. Hi David12. Did you ever find anything of use to do this? I too am looking for something a little more intuitive to set a base rate for charge. Say it drops 5p over 5 times in the day it will charge.

I've recently installed a GivEnergy solar and battery system and now looking at automation of charging and export. I have come across the following systems: Wonderwatt, MyEO, ...

If you own an Electric Vehicle or have battery storage with GivEnergy, the Octopus Agile Tariff is ideal. When prices plunge you can plug in your vehicle and make the most of the free energy or you can ...

Agile Octopus is one of Octopus Energy 's smart and innovative tariffs, offering customers electricity prices that change every half an hour, based on the wholesale price of energy. Over the past two ...

This video discusses various energy tariffs for GivEnergy systems, focussing on Octopus Energy and providing insights on choosing the right tariff for both EV and non-EV users. ...more

Givenergy and octopus agile

I have a GivEnergy battery and have just moved to the Octopus Agile electricity tariff in the UK. What I would like to do is, when the half hourly rates are published for the next day is to set ...

Agile Octopus is a cutting edge innovation created by Octopus's unique technology. You get access to half-hourly energy prices, tied to wholesale prices and updated daily.

Track your electricity costs with rates that change every 30 minutes, tied to UK energy wholesale prices. Agile puts you in full control.

GivEnergy's Octopus Agile Program integrates GivEnergy's renewable energy storage solutions with Octopus Energy's Agile tariff. The Octopus Agile tariff pricing model changes based on ...

How does Agile Octopus work? At 4pm every day, your unit rates are updated for the next 24 hours, based on the wholesale market rates. The battery storage system is then programmed by Octopus ...

I moved from Flux to Octopus Agile in October 2023, stayed on Agile all through 2024 and then moved to Cosy about a month ago as the Agile rates were consistently higher than Cosy.
