Are electric motorcycles coming to Havana?

HAVANA TIMES - For some years now, it has become increasingly common to see electric motorcycles and motorbikes in the urban landscape of Havana and, to a lesser extent, in other cities across the country.

Is public transportation a good idea in Havana?

Public transportation is hardly more palatable. Buses in the Havana area are far fewer - and more crowded and uncomfortable - than in previous years. And half the routes to points outside the capital have been eliminated this year, according to state-run media, as fuel and spare parts dwindle.

How many employees does vedca have in Havana?

On a recent weekday visit to the company's plant outside Havana, some of Vedca's 64 employees assembled plastic parts, soldered wires, and tightened bolts in an orderly assembly line, while others greeted customers arriving for pick-up.

By far the majority of cars in circulation in Cuba are American models from the 1950s -- before sanctions started -- and compact Ladas from the Soviet era. Newer models are practically ...

er analyzes which Battery Electric Vehicles (BEV) could meet the current car travel needs in different uses. The results from a survey about distance travelled in daily trips in La Havana,...
