From the rugged terrains of the Permian Basin to deepwater platforms in the Gulf of Mexico, our containers are engineered for durability, safety, and adaptability.

Americase containers are made durable to withstand the rigorous wear and tear of daily use on off-shore rigs or through regular equipment use. Additionally, our cases are 100% made-in-America from ...

Constructed from high-grade, heat-resistant materials, it ensures safety and durability while maintaining integrity under stress. The container's robust design includes features such as reinforced walls and ...

Extreme-temperature process totes and lids withstand large fluctuations and differentials in temperature. They store and cover hot items during transport from a production line.

These polypropylene totes are chemically resistant to acids, alkalis, oils, and detergents. The tough, smooth surface won't chip and is m...

The oil bag is easy to fold, wear-resistant, drop-proof, environmentally adaptable, easy to carry, and simple to use. It can replace the traditional iron fuel barrel and is suitable for refueling cars, trucks, ...

At Mouritsen, we have a range of purpose-built offshore containers that are used in the offshore industry for transportation and storage of equipment and materials. They are designed to ...

Whether on offshore platforms, for fracking trucks, mobile drilling rigs, or FPSO units, our container solutions are designed for optimal use under demanding conditions.

Managing crude oil and heavy fuel oils demands more than just standard tanks. Our insulated, double-walled storage solution maintains product temperature, minimises risks, and ensures long-term ...

High-Temperature Resistant Folding Containers for Oil Platforms

Oil and gas IBC totes are engineered to withstand the corrosive chemicals and demanding environments that accompany applications in the petrochemical industry and energy sector. The totes are built for ...
