We provide tailored solar energy solutions for backup, residential, and commercial needs, catering to your unique power requirements.

Combines high-voltage lithium battery packs, BMS, fire protection, power distribution, and cooling into a single, modular outdoor cabinet. Uses LiFePO4 batteries with high thermal stability, extensive cycle ...

It has a voltage range of 448-584V and dimensions of 2400x1100x2450mm, with an IP54 protection rating. This energy storage cabinet supports both on-grid and off-grid configurations, with harmonic ...

Empower your off-grid projects and grid-support applications with a reliable outdoor battery storage cabinet from TOPBAND. Engineered for harsh climates and demanding workloads, our outdoor ...

Each cabinet features IP54-IP65 ingress protection, ensuring it functions as a weatherproof battery enclosure suitable for telecom stations, solar applications, and industrial sites.

Battery enclosure boxes also feature locking mechanisms that protect unauthorized people against possible electrical dangers if they happen to be tampering with your equipment. Our battery ...

With IP54/IP55 protection, anti-corrosion design, and intelligent temperature control, they are ideal for telecom base stations, remote power supply, and containerized microgrids. Our outdoor cabinets are ...

High-capacity modular design that can be scaled from 215kWh to multi-MWh configurations. IP54-rated outdoor cabinet that withstands extreme temperatures, dust, and moisture.

Designed for harsh environments and seamless integration, this IP54-rated solution features a 105KW

High Temperature Resistant Photovoltaic Battery Cabinet for Urban Lighting IP54 Grade

bi-directional PCS, optional air- or liquid-cooled thermal management, and parallel operation ...

Cooperate with solar panels to form an energy-saving and green photovoltaic storage system, making it easier to build an independent energy storage system for residential and commercial use.
