Project Name: Huangling Mining Group Low Calorific Value Resources Comprehensive Utilization Power Plant Project 2*300MW Technical Data ... Project Presentation Contact information

China's largest solar power plant, which was connected to the grid at the end of December in the south-western province of Sichuan, will supply an enormous two billion kilowatt ...

The first phase of the Huaneng Nagu Photovoltaic Power Station, the world's highest-altitude solar power project, was officially linked to the state grid in the Deqen Tibetan Autonomous ...

The Chinese state-owned power utility China Huaneng Group has commissioned a 320 MW floating solar photovoltaic (PV) project on a reservoir near the 2,650 MW Dezhou thermal power ...

The Huaneng Nagu Photovoltaic Power Station is a part of the Huaneng Lancang River integrated clean energy base. It is situated in the high-altitude, frigid, and uninhabited region of Deqen...

The second phase is a 120MW PV project, which was put into operation on December 30, 2021. In addition, onshore wind power project in the power base has been connected to the grid in full ...

China Huaneng Group, the second-largest power utility in the world by installed capacity, said it will increase investments in new energy projects, including solar and offshore wind power, this ...

This project is the first batch of PV parity projects approved by the National Energy Administration in July 2020. It was commenced in April 2021 and planned to be connected to the grid at full capacity on ...

Recently, we received good news from Shaanxi Provincial Development and Reform Commission that the 2*1000MW unit expansion project of Huangling Mining Diantou Power Plant ...

Huangling Solar Power Generation Project

It is not only a key project in the 13th Five-Year Plan of Shaanxi Province, but also an important power support point for the ultra-high voltage DC transmission line from northern Shaanxi to Hubei.
