As of December 25, 2025, 88% of customers had power restored to the Jamaica Power Grid, a significant milestone. However, nearly 100,000 Jamaicans still lack electricity. Restoration is slower ...

Prime Minister Dr Andrew Holness says the Government wants to see a strengthening of the national power grid as part of efforts to boost Jamaica's resilience.

In Jamaica, the grid needs to be kept at around 50Hz, as blackouts will occur if it dips below that and consumers are disconnected. Traditionally, inertia has been provided as a by-product of large-scale ...

When Hurricane Melissa swept across Jamaica, wiping out service to some 550,000 customers with the utility Jamaica Public Service Company, it reaffirmed a sobering global reality that ...

The Jamaica Public Service Company (JPS) is pushing forward with its multi-billion dollar operation to make the country's power grid more resilient to extreme weather.

This move is part of the company's comprehensive plan to modernize the nation's power grid, which includes reinforcing transmission and distribution systems, replacing aging poles, ...

KINGSTON, Jamaica -- A bold shift in Jamaica's energy resilience strategy is quietly gaining traction following the devastation left by Hurricane Melissa. As the national grid struggles ...

The Jamaica Public Service (JPS) has restored service to 84 per cent of its customers seven weeks after the passage of Hurricane Melissa and with the Government's sign-off on a ...

The Jamaica Public Service Company (JPS) is reporting that power has been restored to 206,000 of its 550,000 customers, following widespread outages caused by Hurricane Melissa.

JPS President and Chief Executive Officer Hugh Grant told the committee that while underground systems
