In a recent landmark auction, the North Macedonian government received 44 bids for battery storage projects, totaling an impressive 4.2 GW of capacity. This ambitious move is a ...

A city where sudden power outages become as rare as unicorn sightings, and solar panels work overtime even after sunset. That's the promise of the Skopje Energy Storage Project - ...

North Macedonia's energy grid as a giant battery-powered picnic basket. You want your energy storage system to keep the "food" (electricity) fresh during cloudy days when solar panels ...

Summary: Explore how Skopje's battery energy storage cabinets address growing industrial and renewable energy demands. Discover key trends, regional applications, and why modular systems ...

From niche to necessity - the PV-boom in Central and Eastern Europe A new energy law adopted in May 2025 is expected to further accelerate the uptake of battery storage. State-led solar ...

North Macedonia's energy grid as a giant battery-powered picnic basket. You want your energy storage system to keep the "food" (electricity) fresh during cloudy days when solar ...

North Macedonia, which has been attracting investments in battery factories, is in talks on a project worth up to EUR 360 million, according to Prime Minister Hristijan Mickoski.

Next-generation battery management systems maintain optimal operating conditions with 45% less energy consumption, extending battery lifespan to 20+ years. Standardized plug-and-play designs ...

With 900 MW of installed capacity, North Macedonia's solar sector is scaling rapidly, while battery storage is gaining momentum. Find out more in our daily focus, 15-18 September.
