Our modular battery systems, compatible with top-tier inverters like Sol-Ark, Luxpower, and Solis, offer a fully customizable energy storage solution for your home.

This integrated solar battery storage cabinet is engineered for robust performance, with system configurations readily scalable to meet demands such as a 100kwh battery storage requirement.

AZE's outdoor battery system is tailored for small to medium-sized commercial and industrial (C& I) energy storage applications. Its modular design not only minimizes the impact of local failures but ...

It creates a series of modular products covering all scenarios of "photovoltaic energy storage direct and flexible" and customized solutions, providing customers with one-stop considerate services.

Combines high-voltage lithium battery packs, BMS, fire protection, power distribution, and cooling into a single, modular outdoor cabinet. Uses LiFePO4 batteries with high thermal stability, extensive cycle ...

It is an one-stop integration system and consist of battery module, PCS, PV controler (MPPT) (optional), control system, fire control system, temperature control system and monitoring system.

The BYHV-ACB0501 AC parallel cabinet enables safe and reliable parallel operation of energy storage systems through integrated switching, control, and protection supports flexible power distribution, ...

Modular design, simple structure, reliable and stable. Switching to smart grid design, controllable energy scheduling, and active and reactive power regulation. Can support 4 dc input, independent control, ...

The solar power battery backup is flexible and powerful and designed for critical applications. It features advanced monitoring and control capabilities and multiple input and output options.

Modular battery cabinet for photovoltaic power station 400V

As superior photovoltaic manufacturer, HITEK ENERGY's dedicated to providing sustainable and renewable energy solutions to strengthen homes, businesses and factories.
