When there is power on the grid, MARSTEK VENUS C / E can save money on electricity by storing electricity when prices are low and discharging it when prices are high, or by charging during the day ...

Marstek initially focused on power banks, but is now showcasing a range of products for the booming DIY solar market, including a user-friendly, AC-coupled battery solution for balconies.

Discover our range of innovative solar panels on shipping container products engineered to meet your renewable energy needs with maximum efficiency and reliability.

SolaraBox Mobile Solar Container brings green energy wherever you need it. The integrated solar system delivers 400-670 kWh of energy daily. Thanks to foldable solar arrays, the container is ...

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

During this introduction, we proudly present the VENUS 3.0 - more compact, lighter, and more powerful than ever - together with the VENUS X, an AC-coupled modular home battery, ideal ...

Among the innovative solutions paving the way forward, solar energy containers stand out as a beacon of off-grid power excellence. In this comprehensive guide, we delve into the ...

Ideal for balcony power plants, the system is easy to install and seamlessly integrates into existing solar systems. The high-quality LiFePO4 battery ensures safety and longevity while delivering efficient ...

By connecting several MARSTEK B2500-Ds, you can flexibly expand the capacity and PV input of your balcony solar system. For example, for a 2 MPPT 800W on-grid microinverter, you can connect up to ...

Ausgestattet mit 4 MPPT unterst&#252;tzt der Jupiter eine PV-Einspeisung von bis zu 2000 W und ist in den
