Will New York achieve 6 gigawatts of energy storage by 2030?

Share sensitive information only on official, secure websites. Governor Kathy Hochul today announced that the New York State Public Service Commission approved a new framework for the State to achieve a nation-leading six gigawatts of energy storage by 2030, which represents at least 20 percent of the peak electricity load of New York State.

Does New York have a bulk energy storage program?

The New York State Energy Research and Development Authority filed with the New York Public Service Commission a proposed bulk energy storage program implementation plan designed to support the state's build-out of storage deployments to meet the stated goal and to reduce projected costs by nearly \$2 billion.

How many states have energy storage goals?

As of February, 12 US states have energy storage targets, the largest of which is in New York, which has a goal of 6 GW by 2030. In mid-2024, lawmakers in Rhode Island established a 600 MW energy storage goal, to be achieved by 2033. In Massachusetts, the governor signed a bill establishing new energy storage requirements in late 2024.

What is New York's energy storage roadmap?

The roadmap is a comprehensive set of recommendations to expand New York's energy storage programs to cost-effectively unlock the rapid growth of renewable energy across the state and bolster grid reliability and customer resilience.

Recently, PJM began changing its Surplus Interconnection Service (SIS) rules, which would accelerate the deployment of energy storage to support and enhance sites with existing ...

New Jersey governor orders state to accelerate solar, storage and virtual power plants Gov. Mikie Sherrill also ordered regulators to study how to "modernize" the traditional electric utility ...

Hawaii signed a bill into law ordering the Public Utilities Commission to develop tariffs for various distributed generation programs, which must include riders for energy storage.

The New York Public Service Commission (PSC) has approved plans to guide the state to its 2030 energy
