-----  
What types of solar inverters are available in NZ?

There are different types of inverter available. This includes inverters that can connect to the electricity grid based on your home's connection. One of the most common types of solar inverter in use in NZ, however, is the hybrid inverter.

Who makes a good inverter?

We partner with globally trusted brands--like GoodWe, Redback, TBB--ensuring each inverter undergoes rigorous testing and meets stringent quality standards. Strong efficiency ratings, minimal downtime, and responsive backup capabilities translate into consistent, predictable energy yields.

Who are Fronius inverters?

Fronius Inverters are a world leader in solar technology and one of New Zealand's most sought after and reputable inverters. Founded in Austria in 1945, they have over 65 years' experience producing innovative and intelligent power storage solutions.

What types of inverters are available?

Our range includes grid-tied, hybrid and off-grid inverters. A Grid-tied Inverter is designed to connect to supplement your home or business' mains power. When there is solar energy to use, the system will deliver it and when there is insufficient energy to deliver, the system will switch back to grid power.

We offer an extensive range of quality products from long-standing and reputable manufacturers and stand behind what we sell. Independent Power has been importing and distributing renewable ...

At New Zealand Power, we offer the best solar inverter range in New Zealand. All our products are made by leading manufacturers and have features suitable for our climate.

Power Electronics supplies New Zealand with electronic motor control products - variable speed drives and soft starters, plus power quality, solar, energy storage inverters and EV chargers.

Whether you're fitting residential rooftops or large industrial sites, our inverter portfolio tackles a wide range of project scopes. Every product offers robust engineering, local support, and easy ...

ZEN Energy offers a range of solar inverters that efficiently convert and direct solar power, ensuring you have electricity available when needed. Their commitment to quality and advanced technology ...

Summary: New Zealand's small power inverter manufacturers are driving innovation in renewable energy, residential solutions, and industrial applications. This article explores their unique ...

We have the largest range of power inverters in New Zealand, and also solar panels, cabling and connectors, deep cycle batteries, battery chargers, circuit breakers, DC componentry, and ...

Our hybrid (or back-up power) inverters are reliable, quick to install, adaptable and scale-able - providing the right solution for powering remote or city residences, farms, rural workshops or off-grid ...

GoodWe is a global leading, strategic thinking brand focused on research and manufacturing of PV inverters and energy storage solutions, with an accumulative installation of 16 GW installed in more ...

We offer String Inverters, Micro Inverters and Hybrid Inverters from SMA, Solax and GoodWe. Contact us to find out more.
