How much do solar panels cost in Ottawa?

Average Cost of Solar Panels in Ottawa On average, the cost of solar panels in Ottawa ranges from \$10,000 to \$40,000 for a residential system, before any government incentives or rebates. The exact cost will depend on the specifics of your installation.

How much do polycrystalline solar panels cost?

The price of polycrystalline solar panels can vary greatly depending on the size, brand, and retailer. On average, they can range from around \$150 to \$300 for a typical residential panel. However, if you're intending to power an entire house, the total cost can run into thousands of dollars considering installation and equipment needed.

Where should solar panels be installed in Ottawa?

For optimal performance, it's best to install solar panels on a south-facing surface. This surface should also be free from any shade. This approach is ideal for homes in Ottawa. Here is a table showing the estimated cost of a residential solar system by the system's size:
