Constructed from galvanized or stainless steel and rated up to IP65, it ensures complete resistance to dust, rain, and corrosion while maintaining optimal operating conditions for all internal components.

AZE's heavy duty outdoor battery enclosures and Lithium battery storage system are available in NEMA 3R, or 4X configurations. These outdoor battery enclosures, which come in all shapes and sizes, are ...

NEMA 3R-rated, weather-resistant carbon steel enclosures are easily installed and assembled. Corrosion-resistant fans prevent Atlas lithium Powerwalls from reaching a maximum 120°F charging ...

Check each product page for other buying options. Price and other details may vary based on product size and color. Need help?

Standardized Structure Design: Includes energy storage batteries, power conversion systems (PCS), photovoltaic modules, and charging modules in a compact and highly efficient cabinet.

Robust Protection: IP54 or higher enclosure rating, resistant to dust, moisture, and extreme temperatures.
Excellent Weather Resistance: Easy to use in all weather conditions.

With IP54/IP55 protection, anti-corrosion design, and intelligent temperature control, they are ideal for telecom base stations, remote power supply, and containerized microgrids. Our outdoor cabinets are ...

Outdoor cabinets feature IP-rated enclosures, corrosion-resistant coatings, and temperature-hardened components, allowing installation without additional shelters or HVAC in exposed conditions--unlike ...

They include a corrosion-resistant fan that helps prevents the outdoor temperature from impacting the operation of batteries within the cabinet. BOSS Cabinets are a perfect complement to the AccESS ...

Outdoor energy storage cabinet for charging piles

AZE's weatherproof Outdoor Enclosures provide durable, corrosion-resistant protection for energy, telecom, and industrial applications. Customizable, NEMA-rated, and built for harsh environments.
