---

It features reinforced construction, improved automation, and ultra-precision die-cutting. Built for high-volume production environments, it offers enhanced durability, higher speed capabilities, and greater ...

Whether it is narrow web or wide web, high-speed cutting or precision registered XY cutting, a single process or fully custom automated production system, Preco has a solution.

A PP hollow board extrusion line comprises interconnected components, including an extruder, die head, calibrating unit, haul-off unit, cutting unit, control system, and auxiliary equipment, all ...

Find your die board cutting machine easily amongst the 36 products from the leading brands (Golden Laser, PERFECT LASER, SUNTOP, ...) on DirectIndustry, the industry specialist for your ...

Our automated Solar/PV modules production line includes a complete set of equipment, such as solar cells laser cutting, string soldering, welding, glass loading, layup, ...

Specialized hollow board die cutting machine designed for corrugated materials and multi-layer boards. Features advanced feeding system and precise cutting control for optimal production efficiency.

Equipment is made with high-quality hardware components and software. Each machine in the turnkey production line is optimized to ensure consistent output, quality, and increased productivity.

Pasquato produces simple stand-alone sheeters that can provide the operator with sheets of encapsulant or cut to size backsheet, with the window of the junction box.

AGRIPAK can offer both rotary or flat die cutting machines. All above machines have been expressly conceived so to achieve very high quality results in the PP hollow profile sheet/box cutting.

# Photovoltaic hollow board die-cutting machine

These machines precisely cut and shape the various layers that make up a solar panel, such as the photovoltaic cells, backsheet, and encapsulant materials. The ability to cut these ...
