What does a power inverter do?

This power inverter lets you run power tools, small appliances, and electronics during a camping trip, roadside stop, or power outage by using your vehicle's battery. This power inverter features a high surge capacity for products that require power up to 4000 watts to start and an LED readout to monitor amps and voltage.

How much does a Hi Wall inverter cost?

A hi-wall inverter single system, suitable for a small area or bedroom, starts at around \$2,000 for a 3kW unit including installation. A single hi-wall type system for a medium sized living area starts at around \$2,500.00 including installation. A larger open plan living area will require a single split system of between 5kW and 9kW.

Why should you buy a Harbor Freight Tools power inverter?

All Harbor Freight Tools offer exceptional value, high-quality, and affordable prices. This power inverter lets you run power tools, small appliances, and electronics during a camping trip, roadside stop, or power outage by using your vehicle's battery.

What is a Harbor Freight inverter?
