How many homes in the UK have solar panels?

According to the latest government data, over 1.4 million homes in the UK have installed solar panels. With a wide range of choice out there, this grand total is made up from many different solar panel manufacturers.

Which Solar System is best for a UK roof?

Aiko delivers premium N-type all-black modules with strong output per square metre and long warranties, ideal for modern UK roofs. Jinko Solar offers some of the highest power outputs, reaching up to 635 W, but warranty cover is shorter. Sharp Solar remains widely available and reliable, with decades of experience in solar technology.

Does GB-Sol offer a roof-integrated solar PV system?

GB-Sol's roof-integrated solar PV system allows high-efficiency solar panels to be discreetly fitted within any type of roofing material. Westech Solar UK is the official UK and EU representative and supplier of Perlight Solar, providing customer service to customers throughout the region.

Who are uksol solar panels?

UKSOL is a British family-owned solar panel producer specialising in the design and manufacturing of residential and commercial solar panels. The company has made a name for itself by offering good quality solar PV panels at competitive prices.
