Who are the top solar companies in Romania?

Romania's solar arena is moderately concentrated, with Photon Energy Group and Enel Green Power Romania anchoring the top tier, while Nofar Energy, Econergy, and NextE Renewable are expanding aggressively. International developers form local joint ventures to navigate the permitting and community engagement processes.

How is Romania supporting rooftop solar?

Romania supports rooftop solar installations through the Casa Verde Fotovoltaice (green PV home) scheme, which is part of the national net metering regime. According to the latest statistics from the International Renewable Energy Agency, Romania had 1.39 GW of solar installed by the end of 2020. Romania is also promoting rooftop PV deployment.

Who is Sol renewables Romania?

With a strong background in renewable energy, they also offer EPC services for solar projects in Romania. Sol renewables Romania develops and manages solar utility projects on land. We co-invest alongside international investors and manage solar photovoltaic projects for them.

Is Romania a solar energy hub?

Finally, the global market relevance of solar energy is rising, driven by technological advancements and decreasing costs. Romania's strategic position in Central and Eastern Europe further enhances its potential as a solar energy hub, attracting investments and fostering innovation in renewable technologies.

List of Romanian solar sellers. Directory of companies in Romania that are distributors and wholesalers of solar components, including which brands they carry.
