What are cellblock battery storage cabinets?

CellBlock Battery Storage Cabinets are a superior solution for the safe storage of lithium-ion batteries and devices containing them. Our practical, durable cabinets are manufactured from aluminum, and lined with CellBlock's Fire Containment Panels.

What are lithium battery safety cabinets?

Our lithium battery safety cabinets are designed to give you security and peace of mind in your business premises. Fire safety benefits - our battery cabinets contain smoke detectors with a warning alarm plus fireproof door seals to alert you to a fire and contain it for longer.

What is a battery cabinet?

The primary function of a battery cabinet is to safely store and charge lithium-ion batteries under controlled conditions. These cabinets act as passive and active safety systems, ensuring that batteries are isolated, ventilated, and, if necessary, extinguished automatically in case of an internal fire.

Are battery storage cabinets fireproof?

In contrast, fireproof battery charging cabinets and lithium battery storage cabinets are engineered to contain such incidents, preventing fire spread and minimizing collateral damage. The primary function of a battery cabinet is to safely store and charge lithium-ion batteries under controlled conditions.

E3MCBC10A - Easy UPS 3M Classic Battery Cabinet with batteries, IEC, 1000mm wide - Config A

Ordinary fire-rated cabinets are designed to handle external fires, but lithium-ion batteries can ignite from within, creating a unique safety concern. Unlike typical fire-rated cabinets, storage ...
