Herein, a solar multi-energies-driven hybrid chemical oil refining system, exemplified by residual oil cracking, has been successfully developed and formulated in solar-driven thermo ...

The solar utility, optimized to collect and concentrate solar energy and/or convert solar energy to electricity or heat, can be used to drive the electrocatalytic, photoelectrochemical (PEC), or ...

The Solarfold photovoltaic container can be used anywhere and is characterized by its flexible and lightweight substructure. The semi-automatic electric drive brings the mobile photovoltaic system ...

From 2024, following the completion of two new nuclear reactors, Slovakia will return to being a net exporter of electricity. Slovnaft is the largest oil refinery in Slovakia. In 2022 Slovakia sought to reduce its reliance on oil from Russia. Slovenský plynárenský priemysel (Slovak Gas Industry, SPP) is the main natural gas supplier in Slova...

MOL Group subsidiary Slovnaft AS achieved first production of sustainable aviation fuel and hydrotreated vegetable oil at its refining and petrochemical complex in Bratislava, Slovakia.

Oil Slovnaft is the largest oil refinery in Slovakia. In 2022 Slovakia sought to reduce its reliance on oil from Russia.

This paper proposes a solar-assisted method for a petrochemical refinery, considering hydrogen production deployed in Yanbu, Saudi Arabia, as a case study to greenize oil refineries.

This paper investigates the techno-economic and environmental aspects of incorporating a solar-hydrogen-based hybrid renewable energy system (SHRES) into oil and gas processing facilities.

All crude oil currently processed by Slovnaft is REBCO (Russian Export Blend of Crude Oil), transported to

Slovakian oil refinery uses 15kW photovoltaic folding container

Slovakia by the Druzhba Pipeline, mainly from Western Siberian oil fields. The first production unit ...
