Submit your inquiry about hybrid electric systems, solar panels, solar cells, inverters, and energy storage applications. Our solar experts will reply within 24 hours.

By investing in solar power and battery storage technology, the country is making a decisive move toward energy independence, economic growth, and a sustainable future for its people.

Ezra Group, a South Sudan family-run conglomerate, on Monday announced the launch of a 20-MW solar power plant with a 14-MWh battery energy storage system in South ...

This project was among the first of its kind in South Sudan, showcasing an innovative approach to providing reliable, off-grid energy solutions. Looking Ahead South Sudan is at a ...

This infographic summarizes results from simulations that demonstrate the ability of South Sudan to match all-purpose energy demand with wind-water-solar (WWS) electricity and heat supply, storage, ...

This project was among the first of its kind in South Sudan, ...

Ezra Group, a prominent business conglomerate, proudly unveiled its 20MW solar power plant and 14-Megawatt (MWh) Battery Energy Storage System (BESS) in South Sudan

Key Figures & Findings: South Sudan is embarking on a significant renewable energy transformation, with a new solar-plus-battery storage (BESS) project to address the country's ...

A public-private partnership in South Sudan has launched the country's first major solar power plant and Battery Energy Storage System (BESS) in the capital Juba, where it is ...

The 20 MW solar PV plant, located in Juba, the capital city, will have a 14 MWh battery energy storage
