-----

Bulgaria installed over 1 GW of solar for the third consecutive year in 2025 and is forecast to add over 2 GW this year thanks to a large pipeline of utility-scale projects.

o Bulgaria portalo Energy portalo Solar powero Solar power by countryo Solar power in the European Union

The Bulgaria Solar Energy Market Report is Segmented by Technology (Solar Photovoltaic and Concentrated Solar Power), Grid Type (On-Grid and Off-Grid), and End-User (Utility ...

Bulgaria's #Solar Momentum: A Record 2025 ??? #Bulgaria has officially set a new benchmark in its #energy transition. According to recent industry data, the country successfully ...

The Bulgarian solar energy sector is witnessing a remarkable transformation as the country's solar power capacity surges past expectations, with the biggest photovoltaic parks coming ...

Bulgaria installed 1,416 MW of new solar capacity last year, extending its run of annual additions above 1 GW to a third straight year and raising total installed solar capacity to 5,984 MW, ...

Solar power in Bulgaria was expanded by 100 megawatts (MW) in 2011. A 16.2 MW solar power plant in Zdravetz, Bulgaria was expected to be completed in June 2012, with power being sold for \$0.30/ ...

Bulgaria reached a critical milestone in its renewable energy transition in 2025, building 1,416 MW (1.4 GW) of new solar photovoltaic (PV) capacity -- its third consecutive year above 1 GW - bringing the ...

Our positioning as a leading country in photovoltaic energy production not only supports the realization and fulfillment of the decarbonization commitments of Bulgaria but also has a positive ...

Recent legislative changes in Bulgaria aim to facilitate the permitting process for solar power plants. The report provides a complete picture of the market situation, dynamics, current issues and future ...

Bulgaria deployed 1,416 MW of solar &quot;last year&quot; (2025), marking its third consecutive year above the 1 GW threshold and pushing cumulative capacity to nearly 6 GW. The market is ...
