---

Since 2018, the DC Sustainable Energy Utility has operated the solar procurement process for SfA for DOEE. The program was established to support DC's Renewable Portfolio Standard (RPS) goals to ...

The report shares how much energy (in kWh) is produced by each solar array, the amount of energy and credits (in dollars) provided to each individual subscriber, the tariff (credit) rate applied, and other ...

Explore each of the research areas below and the research topics within them. You can also learn about the basics of solar energy and find solar energy resources.

DOEE is partnering with organizations across the District to install solar on single family homes and develop community solar projects to benefit renters and residents in multi-family buildings.

DOEE has teamed up with EnergySage to help District residents make the switch to solar energy by installing solar panels on their property or subscribing to a local community solar farm.

The team used NASA's Prediction of Worldwide Energy Resources (POWER) solar data and a Light Detection and Ranging (LiDAR) derived digital surface model, to estimate and visualize ...

Solar State By State Explore the latest solar market insights and policy updates in all 50 states and Washington, D.C. All market data is current through Q3 2025.

The study area comprises the Maryland communities immediately surrounding Washington, D.C. that supply solar energy to the District through cross-border electricity feeder lines (shown in orange).

NLR's solar energy research leverages our expertise--from materials to systems to commercialization--to continually improve the affordability, performance, and reliability of this ...
