Solis Single Phase Grid-Tied Inverters Features: String current up to 16A Integrated with zero export power control function Light weight with compact design for easy installation

S5-GR1P (0.7-3.6)K-M series inverter is designed for residential PV plants. The maximum input current per string is 14A, which is compatible with high-efficiency modules and bi-facial modules.

The Solis S5-GR1P3.6K-M-DC is a 3.6kW single phase inverter from the ...

Recommended max. PV power.

Equipped with an input voltage range of 330.0-600.0 V, this inverter ensures compatibility with a wide range of solar panels for maximum energy production. Weighing only 11.5 kg, this ...

The Solis S5 Single Phase Inverter main menu provides access to operational data and information. The information is displayed by selecting "Information" from the menu and then by ...

Solis S5 Mini Series Inverter Datasheet - Free download as PDF File (.pdf), Text File (.txt) or read online for free. This document provides ...

Solis Single Phase Grid-Tied Inverters Features: Max. efficiency 97.7% Wide voltage range and low startup voltage Supports export power control

The S5-GR1P (3-6)K series inverter is designed specifically for residential PV plants: o High Input Current: Supports a maximum input current per string of 14A, compatible with high-efficiency ...

S6-GR1P (2.5-6)K-S series inverter is designed for residential PV plants. The maximum input current per string is 14A, which is compatible with high ...
