TUNIS, Dec. 17 (Xinhua) -- A solar photovoltaic power station built by Chinese companies was inaugurated on Tuesday in central Tunisia's Kairouan province.

French renewable power producer Voltalia SA (EPA:VL TSA) has been selected by the Tunisian government to develop a 132-MW solar project in the Gabes region of south-eastern ...

UAE-based developer AMEA power and the government of Tunisia have commissioned the country's largest solar project in Kairouan. The 120 MW project is expected to generate ...

Tunisia accelerates clean energy transition by awarding large-scale wind and solar projects to global developers under its 1.7GW plan.

Tunisia is accelerating its energy transition by awarding 4 solar photovoltaic projects totaling 498 MW to reduce import dependency and promote renewable energy. Faced with growing ...

Tunisia has awarded four new solar power projects to international companies for the production of 500 megawatts of electricity as part of a drive to expand the share of renewable energy ...

Tunisia has awarded French renewable energy company Voltalia a contract to develop a 132-megawatt solar power project to boost electricity supply in the country.

For North Africa's energy transition, the project marks a decisive step toward cleaner, more secure power systems. Tunisia has commissioned a 120-megawatt solar power plant in ...

Self-generation is growing as businesses and households adopt solar. The Ministry estimates nearly 400 MW of low-voltage PV capacity installed, with 70 MW operational, highlighting ...

Tunisia installs solar power generation system

In 2010, Tunisia launched the Prosol Elec program to promote the installation of solar panels on roofs connected to the low-voltage grid through subsidies and loans.
