Does Cyprus have 5G?

The Cyta 5G network offers full population coverage across Cyprus. With 100% population coverage, 5G is available in urban, suburban, and rural areas, ensuring high speeds and reliable connectivity wherever you are. This means that our customers can enjoy the benefits of 5G everywhere, whether in cities or remote locations.

Where is 3G coverage in Cyprus best?

The 3G coverage in Cyprus is fairly good - particularly in and around the bigger cities. That is where the majority of the population lives and just as naturally that is where the providers focus their development of the mobile networks. 3G is offered by all mobile operators in Cyprus.

Is 4G available in Cyprus?

While 4G mobile network coverage is still sparse in Cyprus, it is available in the five biggest cities: Nicosia, Limassol, Larnaca, Paphos, and Famagusta. 4G is currently offered by two mobile providers in Cyprus: MTN and Primetel.

What frequency band does 4G use in Cyprus?

While the 3G mobile network in Cyprus uses the UMTS 2100 frequency band, the 4G mobile network coverage is still sparse in Cyprus, and its frequency band is not specified in the given passage.
